

Small Multi Test Stand MS series

Small, lightweight, and portable. Ideal for mounting on equipment.
Fine adjustment of a force gauge's position by knob operation.
MSL-50N : Ideal for force-displacement measurement.

MS series Model	
For force measurement	MSF-50N
Force-displacement measurement	MSL-50N

- Test stand weight: only 1.2kg
Small, lightweight, and portable.

- It moves by 18mm by a complete turn.
Fine adjustment of a force gauge's position. You can move a force gauge up/down by 80mm at maximum.

- Force-Displacement testing
Portable test stand for force-displacement measurement.
*There is a product which include digital force gauge and software.
Model : FSA-MSL series

*The force gauge is not included.

Ideal for mounting on equipment	Designed to suit different measurement environment
<p>Screw holes</p>	<p>Can be fixed differently</p> <p>Table</p> <p>You can move a mounted force gauge over the length of MS series test stand.</p>
<p>It has M4 screw holes to fix it on your equipment. Ideal for measurement obliquely, or big sample testing, and more.</p>	<p>Table can be removed or fixed differently, so the testing method would be various to fit your measurement conditions.</p>

* Dimensions are in 4th page.

[Application examples: It can be used for various measurement purposes and environment]

Purpose	Measurement environment	
	On Tables	In unstable places
Force peak measurement	 <p>Portable. Easy operation.</p>	 <p>Ideal for measurement of switches on walls or ceilings with optional handles (MS-01).</p>
Force-displacement analysis	 <p>Portable force-displacement graphing / analyzing system.</p>	 <p>Can be fixed on equipment or tripods. (To fix it on your tripods, optional accessory MS-02 is needed. * We do not sell tripods.)</p>
 <p>*Data can be saved into a USB flash drive. ZTA series force gauge (*1) can transfer measured data into USB flash drive. Combining MS series with ZTA series, you can save measured data (100times / sec) as Excel CSV format in USB flash drive. You can also make a graph of the saved date with Excel functions on PC. << ZTA series force gauge (*1) Sold separately</p>		

[Force-displacement measuring unit FSA-MSL series]

Force-displacement measuring unit FSA-MSL series : Characteristics	
<p>Measuring unit to draw force-displacement curve easily Ideal for switch feeling testing or material testing such as rubber and more.</p>	
	<p>Model:FSA-MSL-_N * You can select force range from 2N(200gf), 5N(500gf), 20N (2kgf), 50N(5kgf) to fit your needs.</p> <p>Unit details 1. Test stand with a linear scale 2. ZTA series digital force gauge 3. Force-displacement graphing software Force Recorder Professional 4. Cable Please refer to each specifications for further information.</p>
	

* Please refer to FSA series specifications for further information of FSA-MSL series.

[Option]

Handle	Screw diameter conversion adapter
MS-01	MS-02
	
Fixed on the bottom of MS series.to make measurement more easily and stably.	Used to fix MS series on tripods (*).

*We do not sell tripods.

Ideal for measuring force peak values. Simple and affordable model.	High sensitivity: provides accurate results for even quick movement testing. Measured data can be saved in USB flash drive.	Ideal for switch feeling testing etc. since it is close to the sense of operation by human.

It would be a pleasure to provide advice to select the best products or testing system for you. Please do not hesitate to contact us or our distributor in your country.

[Specifications]

Model	MSF-50N	MSL-50N
Features	Standard	-FA option *1
Capacity	50 N	
Stroke *2	Approx. 44 mm at maximum	
Travel of a mounted gauge	Manual; Knob	
Travel	18mm / 1 complete turn	
Size	Approx. H204*W109.4 *D72mm	
Weight	Approx. 1.2kg	
Accessory	Attachment mounting plate, screws, Lwrench, instruction manual	
The gauges that can be combined *3	Digital force gauge DST/DSV/ZTS/ZTA series	Digital force gauge ZTA series

*1 It is included displacement scale. You can measure force-displacement using with ZTA series.

*2 The maximum stroke means the distance between the test stand table and the thread of the ZT series.

*3 Please select below 50N capacity of digital force gauges.
